Enable VNC for users on a Mac

How to

- 1. Open "System Preferences" from the Apple Menu.
- 2. Click the "Sharing" preferences pane.
- 3. Select "Remote Management"

	Compute gurduv-s	rs on your local network can access your computer at: Edit
On	Service Screen Sharing File Sharing Printer Sharing Remote Login Remote Apple Events Internet Sharing Bluetooth Sharing	Remote Management: On Other users can manage your computer using the address gur-limac.weizmann.ac.il. Computer Settings Allow access for: All users Only these users:
	Content Caching	+ - Options

- 4. Click the plus (+) sign on the bottom.
- 5. Select your user to allow it to remote control the Mac via VNC.

6. Check all boxes in the window that opens, and click OK.

Computer Name:		 Observe Control Show when being observed 	Edit
On	Service Screen Sharing File Sharing Printer Sharing Remote Login Remote Manag Remote Apple Internet Sharin Bluetooth Shar Content Cachie	 Generate reports Open and quit applications Change settings Delete and replace items Start text chat or send messages Restart and shut down Copy items 	ress omputer Settings
		+-	Options.

7. You will now be able to connect to your mac using VNC.

Notes:

• Make sure you have your mac's user and password, if different from the Weizmann credentials. The VNC connection uses these credentials.
